

## NOG MARKET STRONG

Big Day's Receipts and Quality Fine.

## SEVENTEEN CARS SOLD

Buyers Feel Better but Still Clamor for More.

Yesterday was a hummer in the hog business of the stock yards and every one was just as busy as a bee. The market was strong and the quality of the hogs was fine. The receipts were big and the buyers felt better but still clamored for more. The market was strong and the quality of the hogs was fine. ## STOCKS AND BONDS

New York, Nov. 23.—The slump in Steel and Wire of 4 points just at the close of the trading last evening was universally regarded as a danger signal. The speculative public came down to Wall Street this morning in a mood receptive to suggestions of depression and reaction. The first suggestion came in the form of a further break of 1 point in Steel and Wire. Apparently no more effective point could have been selected at which to attack the market. This was known from previous experience with this particular stock. The iron and steel traders are supposed to have had most to hope and, in fact, actually to have enjoyed most of the benefits of the revival of business activity. The sudden weakness of Steel and Wire did not raise any doubts of the report heretofore accepted of the prosperous conditions in that trade, and the excellent prospects for the future of the industry. The sudden weakness of Steel and Wire did not raise any doubts of the report heretofore accepted of the prosperous conditions in that trade, and the excellent prospects for the future of the industry.

Provisions were rather easy early, influenced by heavy hog receipts, but turned firm later on buying by an influential local operator who had formed a hint for shorts to come in and cover. January pork closed 2 1/2 higher, at 11 1/2; January lard closed 1/2 higher, at 18 1/2; and January ribs closed 1/2 higher, at 12 1/2.

Estimated receipts tomorrow: Wheat 10 cars; corn, 40; oats, 10; hogs, 2,000 head.

## GRAIN AND PRODUCE MARKETS

The bear effect produced was dissipated by the time the market opened. The speculative and private accounts held all through the market. The purpose of the bear market was palpably to elicit the same response. The market was doing this. As the decline in prices extended, the offerings increased. Those who had been speculating for the advance had been in the market naturally the most affected. The local traction stocks, the grainers, the Pacific coast stocks, the oil stocks, were most prominent in the downward movement. Sugar was freely sold on the cut in prices of refined sugar and coffee. The market was not so much in the trade war. But the stock was very fearful at all times. Practically the only effective resistance offered to the downward movement was from the New York Central and Chesapeake and Ohio showed continued strength at that time. The New York Central was over last night. There was nothing in the market to cause apprehension, rates ruling at 3 1/2 per cent, or lower, practically insuring a good increase in cash returns for tomorrow's bank state-
